

Aquavit

Multivitamin Syrup with Cod Liver Oil

DESCRIPTION

Aquavit Syrup is a balanced combination of eight essential vitamins and cod liver oil which adequately replenish the deficiency of vitamins and maintains the proper growth and resistance of body against diseases.

Aquavit Syrup contains vitamin A, vitamin D, vitamin C, vitamin B₁, vitamin B₂, vitamin B₆, vitamin E, Nicotinamide & cod liver oil which are essential for normal metabolic functions including hematopoiesis. Vitamin A plays an essential role in the function of retina and is essential for growth and differentiation of epithelial tissue. Vitamin D is essential for prevention & cure of metabolic rickets and for treatment of hypoparathyroidism. Vitamin C is involved in tissue repairment and collagen formation. The members of vitamin-B are components of enzyme systems that regulate various stages of carbohydrate, fat and protein metabolism, each of the components playing a specific biological role.
